

## **In search of the elusive core healing**

### **Unlocking the Assemblage Point with the Theragem**

By Maria Krajnak

A single light flickered in the small hut. It had been another long night in ceremony. My stomach muscles ached from hours of purging all the “emotional yuck” that had resided inside of me for who knows how long. It didn’t matter. All I know is that it was out.....

A story of amazing realizations based on personal experiences from Maria Krajnak, former acting director Oasis Centre of the Hippocrates health Centre in Florida, frontrunner in adapting new highly effective treatments methods and technologies in the CAM. Her encounter with Theragem witnessing first-hand the transformation on physical, emotional, mental and spiritual levels all by one device Theragem Fusion Light therapy made her realize there are simpler ways to enlightenment. A must read story !
