

Electromagnetic frequency (EMF) pollution is a subject of growing concern for individuals and healthcare professionals worldwide – with our children, the elderly, pets and the chronically ill as the most susceptible groups. EMF weakens the life force of the body's energetic fields and undermines the immune system allowing diseases to flourish.

The Zervana range is designed to specifically transform the harmful waves in the EMF field into beneficial ones. Using holographic designs based on ancient wisdom, Zervana counteracts the negative energies from power-lines, personal devices, smart meters, Wi-Fi and 5G.

Using Zervana Holograms could not be easier and requires no maintenance. Simply transform the quality of your environment with Zervana holograms, and keep the benefits of modern day life!

# ZERVANA

A brand new solution creating tranquil spaces in the home, office and therapy rooms. Zervana's clever science based on ancient geometric wisdom, transforms the negative pollution of EMF into beneficial spaces. As tension is released, a renewed quality of life experience ensues.

## HOW ZERVANA TRANSMUTES EMF

Electromagnetic waves transport energy through empty space, stored in the propagating electric and magnetic fields. Like Noise Cancellation Headphones, the Zervana system creates a counter wave to the vertical detrimental wave form. Zervana intercepts the toxic elements of ambient EMF that emanate from mobile devices, laptop computers and cell phone towers, producing coherent polarized field spaces, that neutralize the detrimental elements of ambient EMF.

Zervana transmutes EMF pollution, depression, headaches and eye strain. Even night time grinding and restless sleep syndrome are positively affected by the application of Zervana in the home and office.
